

JH Rhodes Company, Inc.

The Polishing Pad Manufacturer

Drawing on over 110 years of polishing expertise JH Rhodes Company, Inc. has developed a polishing pad product line to address challenges to the surfacing industry. In 1975 JH Rhodes became a division of Universal Photonics, Inc., applying cast polyurethane polishing pad technology to its core markets. As a polishing pad manufacturer, we are committed to supporting the leading-edge capabilities of our customers. This commitment is supported by an established technical foundation in the physical and material sciences and process/application engineering. Our ISO 9001 registered organization is also dedicated to delivering product quality and reliability to the markets we serve.

With an established global installed base JH Rhodes has a wide range of high quality, cost effective consumables and the technical know-how to meet the needs of virtually all surfacing and polishing disciplines.

Key Markets JH Rhodes Serves •Precision Optics •Flat Glass / LCD / FPD •Memory Disk Drives •Semiconductor Substrates

JH Rhodes Core Technology LP-Series Cast Polyurethane Polishing Pads

We hope that you will take a minute to browse through our website and hopefully find polishing pad information that you need.
